

Dear Resident,

Last winter was a cold winter and the residents that have connected to our system are saving significant energy cost. Our billing rate is \$1.29/ccf which equates to \$1.18/gallon propane cost. Propane prices are currently well over \$2.00/gallon. This represents a savings of approximately 70% and higher! In addition, members don't have to pay large tank fill up costs, only pay for the gas used each month.

All American Energy Co-Op greatly appreciates your business and looks forward to supplying your home with natural gas. We also wanted to extend this one time rebate offer to you on the purchase of a natural gas hot water heater.

- Cost Effective - Less Expensive - Better for the Environment

Installation Verification - Prior to honoring any rebate, the Co-Op reserves the right to conduct an on-site verification that the equipment has been installed according to Program Guidelines and is in operation. This site visit, and all aspects related to this site visit, are conducted solely for such purpose. The site visit is not a safety review, nor is it intended for any other purpose.

When will I receive my rebate credit? - Pending approval, we will process and credit the rebate within 6 to 8 weeks of receipt of the properly completed and signed application.

No Warranties - The Program and the Vendor do not endorse, guarantee or warrant any particular contractor, manufacturer or product installation. The Program and the Co-op do not make any representation of any kind regarding the results to be achieved by the equipment or the adequacy or safety of such equipment. The Co-op is not responsible for any damage that may be caused by or arise out of an installation of any equipment, whether self-installed by the customer or installed by a contractor.

Instructions:

1. Have a licensed heating contractor or plumber install eligible equipment.
2. Submit completed form, and include a copy of purchase receipt and a copy of install receipt
